

The 18meshes Towel Rolls series

Compares with the 22 meshes series, the 18 meshes series towel rolls has more clear and strong meshes because of new making technical applying, which makes the towels touched thicker than common 22 meshes cloth at the same gram. The person who using this towels will think the gram of this style nonwoven towels were over 60gsm in despite of the real gram just 53gsm. So, A lot of clients like such style.

The naming rule of Nonwoven Towel rolls is "053-18-W", the number "053" stands the gram is 53gsm, the number "18" stands there are 18 meshes per square inch on the towel, the "W" stands the color of the towel is white.

To the gram of this style, we can make from 45gram up to 120gram; to the color, we can make any color as per the customer's requirement.
